

Yandex Checkout

Paying with
Yandex.Money

To make payments using this method, you need a [Yandex.Money Wallet](#).

1. Select **'Yandex.Money'** in the list of the payment methods and log in on our service site.
2. Select where to debit money from: your Yandex.Money Wallet or linked bank card.

The screenshot shows the Yandex Money payment interface. At the top, there is a search bar with the text "Good, service, or store" and a "Search" button. To the right, there are buttons for "Add" (with a wallet icon and "₽0.44"), and "Withdraw".

The main content area is titled "Test Store" and contains the following information:

Order number	1292_57d
Payer's ID	ivanov@domain.ru
Amount	₽1

Below this information, the "Payment method" section is visible. It shows a dropdown menu with "VISA 4276 55** **** 2981" selected. Below the dropdown, there are two options:

- Bank cards: VISA 4276 55** **** 2981 (checked)
- Yandex.Money: Your Wallet (highlighted in yellow) with a balance of ₽0.44

At the bottom of the payment method selection, there is a green box with the text "Three digits from the reverse side of the card" and a "CVC" input field.

A yellow "Pay" button is located at the bottom right of the payment method selection area.

At the bottom left, there is a link: [Back to store](#)

At the bottom, there are logos for PCI DSS, MasterCard SecureCode, and VERIFIED by VISA, along with the text: "Details are protected according to the international standard PCI DSS"

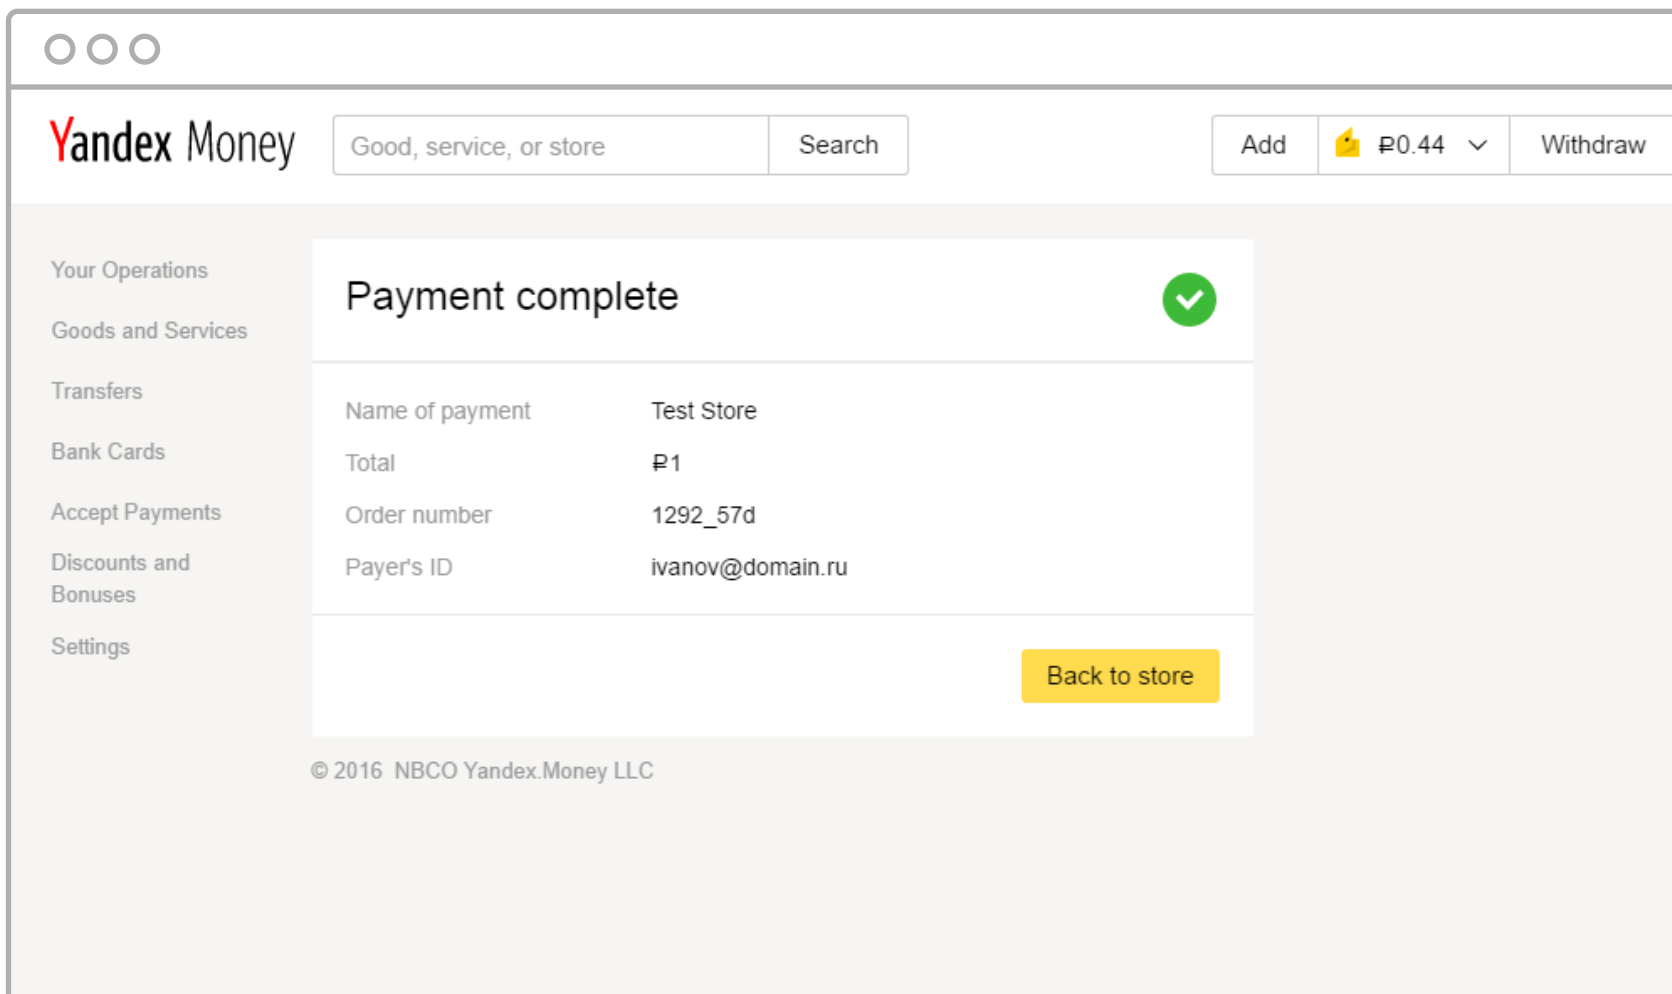

3. If you want to pay with a card, specify its CVV.

The screenshot shows the Yandex Money payment interface. At the top left is the Yandex Money logo. To its right is a search bar with the placeholder text 'Good, service, or store' and a 'Search' button. Further right are buttons for 'Add' (with a yellow coin icon and '₽0.44'), and 'Withdraw'. On the left side, there is a vertical navigation menu with the following items: 'Your Operations', 'Goods and Services', 'Transfers', 'Bank Cards', 'Accept Payments', 'Discounts and Bonuses', and 'Settings'. The main content area is titled 'Test Store' and contains a table with the following information:

Order number	1292_57d
Payer's ID	ivanov@domain.ru
Amount	₽1

Below the table, the 'Payment method' is set to a VISA card with the number '4276 55** **** 2981'. A visual representation of the green Sberbank VISA card is shown, displaying the same card number. Below the card number, there is a prompt: 'Three digits from the reverse side of the card' followed by a small input field containing three dots. At the bottom right of the card area is a yellow 'Pay' button. At the bottom left of the main content area is a blue link: '< Back to store'. At the very bottom of the page, there are security logos for PCI DSS, MasterCard SecureCode, and VERIFIED by VISA, along with the text: 'Details are protected according to the international standard PCI DSS'.

4. Push '**Pay**'. That's it! The payment details were recorded to your [History](#).

The screenshot displays the Yandex Money web interface. At the top left is the Yandex Money logo. To its right is a search bar with the placeholder text 'Good, service, or store' and a 'Search' button. Further right are buttons for 'Add', a balance indicator showing '₽0.44' with a dropdown arrow, and 'Withdraw'. On the left side, there is a vertical navigation menu with the following items: 'Your Operations', 'Goods and Services', 'Transfers', 'Bank Cards', 'Accept Payments', 'Discounts and Bonuses', and 'Settings'. The main content area features a white card titled 'Payment complete' with a green checkmark icon in the top right corner. Below the title is a table with the following details:

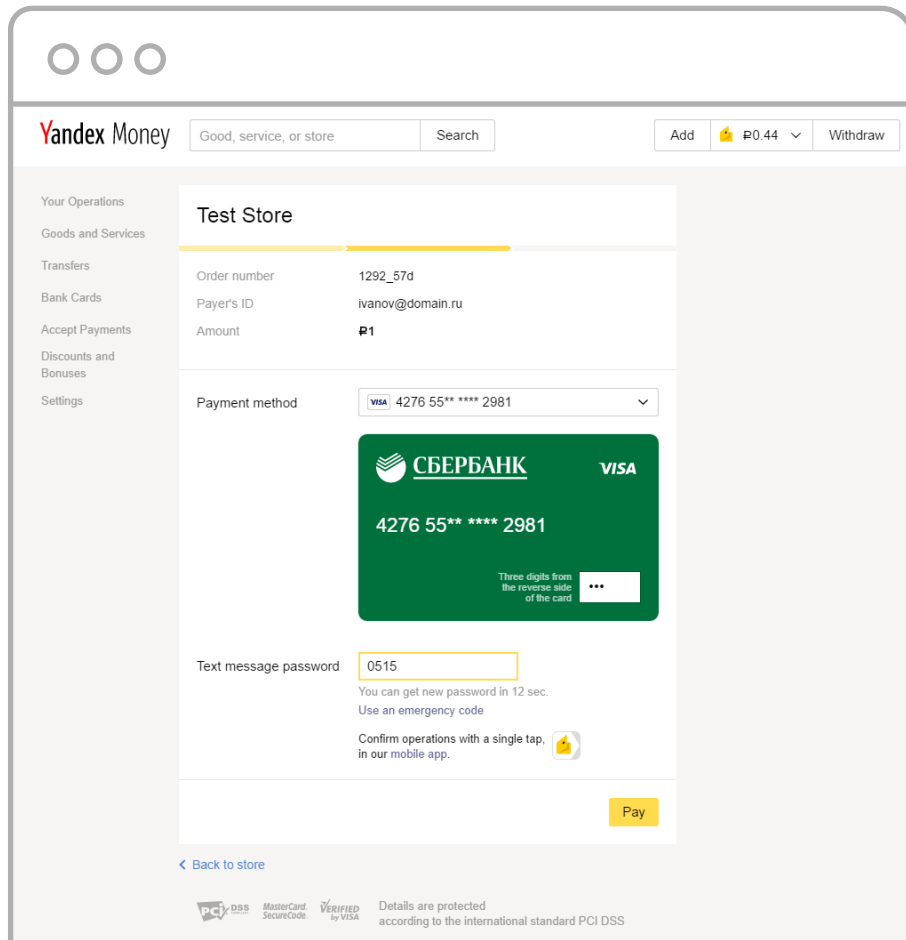

Name of payment	Test Store
Total	₽1
Order number	1292_57d
Payer's ID	ivanov@domain.ru

At the bottom right of the card is a yellow button labeled 'Back to store'. Below the card, the footer text reads '© 2016 NBCO Yandex.Money LLC'.

To go back to the store, click the link under this receipt.

Please note:

- if you pay from a card with 3D-Secure, you will need to confirm the payment once more on your bank's webpage,
- the site sometimes requests a password: for instance, if 'Always request password' option is activated under your account Settings. You can use an emergency password instead of this one.

The screenshot shows the Yandex Money payment interface. At the top, there's a search bar with the text "Good, service, or store" and a "Search" button. To the right, there are buttons for "Add" (with a wallet icon and "₽0.44"), and "Withdraw".

On the left side, there's a navigation menu with the following items: "Your Operations", "Goods and Services", "Transfers", "Bank Cards", "Accept Payments", "Discounts and Bonuses", and "Settings".

The main content area is titled "Test Store". It displays the following information:

- Order number: 1292_57d
- Payer's ID: ivanov@domain.ru
- Amount: ₽1

Under "Payment method", there's a dropdown menu showing "VISA 4276 55** **** 2981". Below this is a green Visa card graphic with the Sberbank logo and the card number "4276 55** **** 2981". A small text box indicates "Three digits from the reverse side of the card" with a masked area.

Below the card, there's a "Text message password" field containing "0515". A note below the field says: "You can get new password in 12 sec. Use an emergency code". Below that, it says: "Confirm operations with a single tap, in our mobile app." with a mobile app icon.

At the bottom right of the main content area, there is a yellow "Pay" button.

At the bottom left, there is a link: "< Back to store".

At the bottom of the page, there are logos for PCI DSS, MasterCard SecureCode, and VERIFIED by VISA, along with the text: "Details are protected according to the international standard PCI DSS".
